# Hello Summer

The days are longer, the nights are warmer, and there's plenty of time to spend with friends and family. Here at the University of Richmond, we have a special summer selection of classes, workshops, and certificates just perfect for making the most of this sunny season.

Let the arts flourish with theater, painting, and languages. From an introduction to drama and the magic of Shakespeare to watercolor and Georgia O'Keefe to French and Italian, summer can illuminate your inner artist!

Maybe your spring cleaning didn't happen this year: make up for it with summer organizing. Or enhance your mind and body with meditation, stress management, Tai Chi, and yoga. Brush up on some personal skills to last you all year long, like customer service or business writing.

Summer is when we pull out all the stops for our youth programs. With over 40 courses available, there are plenty of creative options to make summer learning less of a chore and more chance to soar! Science, reading, writing, and math don't really seem like work when there are no grades, and the sun is still there to greet you when class is done and it's time for fun.

**Come share the season with us: we can help you and your family enjoy every moment of summer!**
