Our History

Established in 2004 at the University of Richmond's School of Professional and Continuing Studies, the Osher Lifelong Learning Institute operates through the support of its members, the University of Richmond, and an endowment from the Bernard Osher Foundation of San Francisco. There are 119 Osher Institutes in colleges and universities throughout the United States. We offer intellectual stimulation and civic engagement in a community of lifelong learners age 50 and better.

Through the Osher Institute you may rediscover your love for learning on the beautiful University of Richmond campus. We offer a wide array of academic courses and programs year round, in the spring, summer and fall semesters. Osher offerings include undergraduate credit courses for audit, special interest groups, mini-courses, free lectures, and more. There are no entrance requirements, no tests and no grades. In fact, no college background is needed at all—it's your love of learning that counts. If you're 50 or better with a curious mind and a keen interest in learning, we'd love for you to join us.

This schedule is a publication of the University of Richmond School of Professional and Continuing Studies. The contents represent the most current information available at the time of publication. However, due to the period of time covered by this catalog, it is reasonable to expect changes to be made without prior notice. Comments and course suggestions are welcome. The word 'love' takes on many meanings, especially when associated with certain holidays and celebrations. But the definitions we like best here at the Osher Institute are those we see exhibited by our members. We witness the 'enjoyment of, appreciation for, delight in, and passion for' learning every day. We hope that this spring's selection of courses will give you more to love and enjoy!

As a reminder, register early! With our growing numbers of classes and members, we recommend that you sign up for your selections as soon as possible. Some classes necessarily have size limits, but we do want you to get into all the classes you wish to take.

Also, please note the training sessions we are offering for our online registration software. We hope our new system, Entrinsik, will go live for our summer course registration. Taking one of these spring training sessions will allow you to become familiar with the system, set up your account, and be ready to register for courses. Our hope is that this will streamline the registration process for you (and for the Osher staff, too!).

Our travel program continues this spring, so be sure to check out our trips at osher.richmond.edu/travel. We will add more trips as plans become final. Currently, our Danube cruise is open for registration.

Come be an active part of the Osher Institute today! Page 4 provides all the details on annual membership and course registration. Become a member, sign up for classes, volunteer to serve on an Osher team, join an interest group! Get involved!

Great Decisions 2017

READING, FACILITATED DISCUSSION

NEW FOR 2017 Designed by the Foreign Policy Association (FPA) and facilitated at the grassroots at hundreds of locations nationwide, the Great Decisions program highlights eight of the most thought-provoking foreign policy challenges facing Americans each year. Each week we will read an article on a specific foreign policy challenge in advance of class, view a 25-minute video and then have a discussion. For 2017, the topics are The Future of Europe, Trade and Politics, Conflict in the South China Sea, Saudi Arabia in Transition, U.S. Foreign Policy and Petroleum, Latin America's Political Pendulum, Prospects for Afghanistan and Pakistan, and Nuclear Security. The 2017 Great Decisions briefing book serves as the focal text for the class, and it provides background information, current data, and policy options for each topic. Students will need to purchase the briefing book (at a cost of \$25.00) and read the first topic before the first class. For information about purchasing the briefing book from FPA and the Great Decisions program in general, visit <http://www.fpa.org> online.

Common Ground (Formerly Topical Discussions)

LECTURE, DISCUSSION

UPDATED Are you tired of the polarization on the major issues facing our country? Are there solutions that will meet the needs of the majority of us rather than one extreme or another? Building on the 'Can't We Just Get Along?' class, we'll examine key issues of interest to participants, bring in data on the subject, and work to find practical solutions. Our first topic will be the US health care system. Subsequent topics will be determined by participants. This is not a class to push

your personal opinion, but one to find 'common ground.'

'Nothing'

LECTURE, DISCUSSION

REPRISED 'Nothing' is the 'something' of this course. We examine the origins of 'zero' in the Western counting systems, describe the notion of 'nothing' among the ancient Greeks, and look closely at 'nothing' in the Medieval Ages. We then study the ideas of the physical vacuum and the concept of completely empty space from the time of Newton through the 20th Century. Finally, we explore the notions of Einstein and others, concluding with the most recent cosmological explanations about whether 'anything' can ever come from 'nothing.'

2017 Peple Lecture Featuring Dr. Matthew Desmond

Ri Se Dr. Matthew Desmond will be visiting campus to present the Edward C. and Mary S. Peple Library lecture on this year's One Book, 'Evicted,' and issues of affordable housing. Desmond is a Harvard sociologist and MacArthur 'Genius' award winner. In his book, Desmond weaves the stories of eight Milwaukee families who are spending more than 50% of their incomes on housing in the private market with a look at policies and practices that contribute to the growing eviction rate. The book also follows the stories of two landlords, shedding light on the often-ignored relationship between tenants and landlords in the private sector. These stories, following years of fieldwork and data collection, are combined to remind us of the importance of home and the community. The lecture will be in Cannon Memorial Chapel. A reception and book signing in Gottwald Atrium will follow the lecture.

A Discussion of Anne Bronte's Controversial Novel 'The Tenant of Wildfell Hall'

LECTURE, DISCUSSION

NEW Join us for this exploration of 'The Tenant of Wildfell Hall,' Anne Bronte's wonderfully crafted and controversial novel. Gilbert Markham is in love with Helen Graham, who is actually Helen Huntingdon, whose husband, Arthur, is an alcoholic who is guilty of spousal and child abuse. The novel met with unfavorable reviews when it was released by Smith Elder. Victorian readers, who were accustomed to Charlotte's 'Jane Eyre,' viewed 'The Tenant of Wildfell Hall' as coarse, and they were not pleased when confronted with the seamy side of their world.

Gold members pay no additional fees to audit credit classes. Silver members pay \$100 for each audit class.

ChinaFest - Inventing Nana Hsu: Creativity in Academic Writing

Ri Se In the fall of 1948, a young woman in Shanghai left behind her high school Chinese literature textbook just as Communist forces made their way into the city and the

Nationalists beat a hasty retreat to Taiwan. The old Shanghai of riches and tatters crumbled, and that textbook moldered on some dank and dingy shelf for more than 60 years, with a mysterious faded phrase on its front cover and the student's numerous jottings inside. Who was that girl and how did she live and die? Or did she? Can she be merely a figment of our imagination? This talk will engage Nana's textbook as an object with a life. Or perhaps, in this case, two lives.

ChinaFest - The Irby B. Brown Lecture: Global China: Connections in Art

Ri Se China has had a long history of interconnection with peoples outside of its borders, the effects of which have impacted and changed its art and culture; meanwhile, influences also traveled the reverse direction with many world cultures having been profoundly affected by China, whether by the invention of gun powder, printing, or porcelain. This talk looks in the direction of China's receipt of outside stimuli in regard to the arts, reflecting its fruitful trade and contact with many places, including in Central, Northeast, and West Asia, and the Indian subcontinent. This presentation will focus on five art objects from the Tang dynasty through the Qing dynasty in the Freer|Sackler's collection; the interworking of foreign inspiration into these classically Chinese objects reminds us of China's long standing and complex global connections.

Can't We Just Get Along?

LECTURE, DISCUSSION

REPRISED How can intelligent people be so far apart with their political beliefs? We are becoming less and less tolerant of those who have beliefs different from ours. Not only regarding our politicians, but we also encounter it in our daily interactions and even in some of our Osher courses. The objective of this class is to help the participants understand how we tend to form our opinions, seek data to support those opinions, and then shut down to anything that challenges them. You will be encouraged to open your minds, understand others with different opinions, and accept that they are likely as intelligent as you are. The framework will be based on the book 'The Righteous Mind' by Jonathan Haidt. This framework is made up of the moral pillars that influence our decisions. While we believe that we are totally rational and logical in our conclusions, they are frequently based on gut feelings driven by our moral pillars, with reasoning then used to justify those conclusions. Let's get ahead of our politicians and try to find the common ground!

Give a Gift of Membership

Christmas, anniversaries, birthdays, Valentine's, and other celebrations are a great time to give the gift of Osher membership. This is SO much better than another sweater, candy, or a pair of socks! This is perfect for a spouse, partner, friend, parent, grandparent, or neighbor.

Osher membership offers great classes, wonderful benefits, and often leads to longtime friendships. Members may engage in interest groups, book clubs, courses, special events, and travel opportunities, as well as attend special lectures, musical performances, and art exhibit openings. Rather than giving something that is consumed or shoved in a closet, give this great gift of intellectual activities, social engagement, and fun!

For more information, contact Peggy Watson at margaret.watson@richmond.edu.

UR Library Friends Board Opportunity

Osher members with a weakness for the pleasures of libraries, take note. A new and active group is forming to plan library-sponsored events on campus. If you enjoy dreaming up and hosting events, the Library Friends Board is for you. This board works closely with University Librarian Kevin Butterfield.

This board plans activities of interest to UR students, people outside the University—and Osher members. We work with other UR departments and a few outside cultural groups to create our calendar, which includes an International Film Festival reception and the famous Peple Lecture.

Our board members may choose student award winners, attend book-packing parties, represent the Friends at on- or off-campus events, or help transcribe old manuscripts. We may also design new items to sell that will benefit the Boatwright. If any one of these possibilities happens to appeal—then the UR Library Friends Board is worth exploring.

Each board member can decide how much time to give. Interested? Contact Marshall Ervine (marshe73@verizon.net), Carl Booberg (chooberg@aol.com), or Friends Administrator Malorie Olivier (molivier@richmond.edu) to learn more and to sign up!

Film Following the Fifties

An Incredible Year: City Point, June 1864 - June 1865

LECTURE, DISCUSSION

NEW Among Civil War enthusiasts, Petersburg gets the notoriety: due to it being under siege for ten months beginning in June 1864. Yet Union success in April 1865 would not have been possible without the operations at City Point (as Hopewell was known in the 19th Century). For a year, the operation at the junction of the Appomattox and James Rivers made it the largest logistics supply center in the world. Among its many facilities were a wharf that handled hundreds of ships a day, a terminus for a major railroad, a 10,000 bed hospital, and an Army headquarters – that also served as a remote White House 'Situation Room' with enough telegraph capacity to reach any and all major battlefield theaters in the US. We will

LECTURE, TOUR

Ri Bo **REPRISED** In the last decade, university food service has changed dramatically due to new demands. Challenges for the industry such as increased numbers of students with food allergies, food recalls from farms and factories, ever-growing demand for variety, and wild fluctuations in pricing have required advanced technology to meet customer needs. Learn about the current technology used to manage large-scale menu planning, inventory and purchasing, nutritional accounting, and other aspects of running university dining facilities. Come enjoy dinner in the Heilman Dining Center, then hear the talk and take a behind-the-scenes tour. There is a meal fee for this program, which you will pay as you enter. MAY

Brexit and the EU: Possible Political, Economic and Territorial Consequences

LECTURE, DISCUSSION

Ri **NEW** On June 23, 2016, a majority of British voters cast their ballots in a referendum to withdraw from the EU, i.e., for a 'Brexit.' The outcome was unexpected, although British 'Euroskeptics' had loudly opposed membership in the EU for decades, often with misleading and inaccurate information. But concerns about immigration and economic conditions, similar to the concerns of Trump supporters in the US, prevailed over arguments by EU supporters that, on balance, the UK benefited from membership and would pay a high price for an exit. Prime Minister David Cameron, who called for the referendum for political reasons, was forced to resign after the vote, and he was replaced by Theresa May, who must now try to negotiate a withdrawal that is not too damaging to British economic and political interests. Not only will these negotiations be a major challenge; there may well be consequences for the territorial integrity of the UK, including a possible withdrawal of Scotland and even Northern Ireland.

Formed and led by Osher members, our vibrant Osher interest groups are listed below. More details about interest groups are online at osher.richmond.edu. An Osher Institute membership is required for interest group participants.

Bicycling

This group will explore bike trails mainly in the Richmond area, with possible rides on trails around Virginia. Group members will use their personal bikes and helmets and provide their own transportation to the bike trails. Most rides will be on week days, of moderate difficulty, and several hours duration. The group coordinator is John Votta at johnjoy2you@verizon.net. All participants are required to sign a liability release form.

Bridge

The social/party/duplicate bridge group meets on the first Friday of each month at 1 PM. A short bridge lesson is taught at the beginning of each session. Please contact Ellen Hollands at efine98@aol.com or (804) 741-0221 if you are interested in joining. These are FUN groups. All levels are welcome!

Great Conversations

For the past eight years our group has been discussing short stories, essays and poetry, with a few longer readings mixed in. The subjects of our chats? This, that and the other thing. As one of our members said long ago, "This is the beginning of a great adventure!" We've floated deep into the Heart of Darkness with Joseph Conrad; in 'Roman Fever', Edith Wharton allowed us to eavesdrop on a long-ago romantic rivalry between two wealthy matrons; Thucydides introduced us to power politics between Athens and Sparta with the tiny isle of Melos as the prize. The adventure continues! We hope you'll join us on the fourth Wednesday of every month from 2-4 PM for smart, friendly conversation about shoes and ships and sealing wax, not to mention cabbages and kings, and who knows what else? If you'd like to sign up, or have questions, please contact Vera Mulherin at paxvera@netscape.com.

Hikers

Come with us and explore the wonders of nature. The breathtaking waterfalls, wildlife, various plants and vegetation; not to mention historic urban settings. Our hikes run from September through June and cover an array of venues from the Shenandoah National Forest to urban hikes, and all points in between. Our hikes generally run between four and seven miles in length with varying degrees of difficulty and elevation change. We generally leave campus around 8 AM and return by 5 PM.

For more information, contact the group coordinator; Tim Hanger at tmhang5@gmail.com. All participants are required to sign a liability release form.

Investments

Now is a great time to join the Investments group. Share your knowledge and gain new ideas that may help you in your personal portfolio. Participants assume any and all risks related to their investment decisions.

The group coordinators are:

Diane Andrews:
liasd1@gmail.com

Jerry Cooney:

Dave Messenger:
