# A unique educational and social opportunity for adults 50 and older.

"The Osher program is more fun than you should be allowed to have by law!"

The Osher Lifelong Learning Institute has been established at the University of Richmond School of Continuing Studies through a grant from the Bernard Osher Foundation of San Francisco. We combine intellectual stimulation and civic engagement with a vibrant community of like-minded students, age 50 and over.

Pursue a special interest. Learn new skills and become involved with social issues. Learn computer basics. Engage in thought-provoking discussions over lunch. Relive history. Experience the arts. Rediscover your love of learning. And do it all on the beautiful University of Richmond campus.

We offer an extensive array of courses in the liberal arts in the fall, spring and summer semesters. The offerings are a combination of undergraduate credit courses for audit, special interest mini-courses, free lectures, community service projects, performing arts events and more. There are no entrance requirements, no tests and no grades. In fact, no college background is needed at all—it's your love of learning that counts.

If you're 50 or older with a curious mind and a keen interest in learning, we'd love for you to join us.

### Digital Photography: The Art and the Technology

The Forgotten People of New Orleans. Community, Vulnerability, and the Lower Ninth Ward Before Hurricane Katrina roared across New Orleans on August 29, 2005, few Americans had heard of the Lower Ninth Ward, a predominantly African-American community where family potlucks and poverty coexisted. After Hurricane Katrina forced them out, many residents were lobbying to return home. "It's a great community," one resident declared. "We want it back." This talk will examine the history of the Ninth Ward and challenges for a resuscitation of this area. Best practices for identifying and responding to bias and prejudice will be highlighted.
