

New Year, new you!

As the calendar turns to 2016, we hope you'll find a wealth of ways to fulfill your resolutions at the University of Richmond.

Explore professional development opportunities such as Web Design for the Everyman, one-day workshops like Digital Advertising and Marketing, or our new Network Security Certificate.

Or turn over a new leaf and dig into the Richmond area's first permaculture design certificate. As a holistic ecological design system, this cutting-edge field includes food production that mimics the natural ecosystems found in forests.

Expand your personal horizons with the Literature of Virginia, Blown Glass Easter Eggs, two Shakespeare courses for the whole family, and new chances to gather Around the Chef's Table. From Art to History to Youth programs, something is sure to spark your spirit this spring.

So step up, look inside, and discover a new you!

SPRING 2016 Class Listing

LOOK INSIDE this issue for an 12-page insert of the monthly schedule of classes for the months of January to May

Around the Chef's Table: The Entire Delicious Bird

NEW! Buying a whole chicken is significantly less expensive than buying individual parts, and leaves the chef with a variety of pieces suitable for many different cooking methods. Join Chef Dave Booth for a culinary tour of everything chicken. Diners will be shown how to break down a whole bird, get coaching on how to store it and make use of all the parts, and sample tasty dishes utilizing each piece. Note: This class is demonstration and tasting, not hands-on cooking. The foods prepared and sampled, while substantial, are for the purposes of learning and will not necessarily comprise a complete meal for participants.

Date: Thursday, April 21

Time: 6-9 PM

Instructor: Dave Booth

Fee: \$99

Local Cooking 101

NEW! Sourcing ingredients from local sources is great for flavor and helps support the local economy. And in many cases, it can be better for you, too. Come prepare a menu using local meats, fruits, and vegetables. Students will also be treated to a lecture by Shauna Wells, owner of the Olive Oil Taproom, on the health and flavor benefits of their olive oils and vinegars. Students will have an opportunity to taste the difference, and will then use these products in the recipes for class.

Note: Class menu will be based upon what local ingredients are available at the time of the class.

Date: Monday, May 23 Time: 6–9 PM Instructor: Dave Booth Fee: \$99

entire spring selection of cooking and baking classes online.

spcs.richmond.edu/culinary

Traditional European Cakes

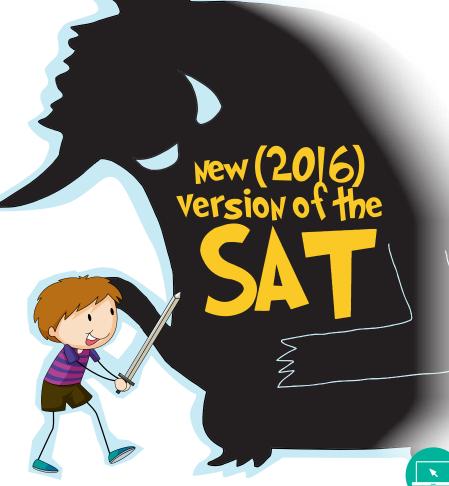

NEW! Join Chef Joshua Carroll for an evening of preparing terrific European-style cakes and tortes while we learn about the differences between what we think of as "cakes" and the originals that influenced them. We will prepare sponge cake, Bavarian cream, ganache, couverture chocolate, and European buttercream then use them to create a few traditional favorites including Dobos Torte, Sacher Torte, Opera Torte, and Charlotte.

Date: Monday, March 21

Time: 6-9 PM

Instructor: Joshua Carroll

Fee: \$99

Get prepared for Test Day

NEW! With the debut of the revised SAT upon us, it is more imperative than ever to get the most up-to-date preparation. Led by instructors with decades of experience, our STEPS (Strategies & Techniques for Enhancing Performance and Skills) to Success program introduces important skills, techniques and strategies to maximize success on test day. We have helped over a thousand area high-schoolers maximize their test-day performance through our uniquely designed and popular Weekend Workshops. Get college prep in a college environment, with all books, materials, and lunch on Saturday and refreshments on Sunday included. Class sessions concentrate on the three major testing areas: Mathematics, Critical Reading, and Writing, all updated for the 2016 version.

Dates: February 20-21, February 27-28, April 30 - May 1 Fee: \$215

spcs.richmond.edu/sat

Youth Etiquette Academy

Get your middle-schooler brushed up on the finer points of social skills. This two-day finishing school focuses on good manners, courtesies, and social and cultural activities for youth. Students will gain confidence in formal dining, the art of conversation, proper introductions, extending and responding to invitations, writing thankyou notes, and other components that define excellence in manners. The course will help provide a solid foundation for dining and entertaining, building social confidence, and establishing respect and integrity. Included is a special brunch to give attendees a chance to show off all the new skills in a group setting. Répondez, s'il yous plaît!

Dates: Sundays, April 10 & 17 Fee: \$95

Learn a New Language

Think outside the box and stretch your mind and memory with one of our foreign language classes. This spring we're offering French, Italian, and Spanish at a variety of proficiency levels. From beginner introductions to individualized sessions and even film and conversation classes, there are plenty of options for you to find something just right.

Choose from three levels of both Italian and Spanish, depending on your experience. And new this spring is a unique class featuring Spanish films and cultural documentaries, enhanced by instructor-guided conversation in casual and interactive sessions.

Take your language abilities to the next level!

spcs.richmond.edu/language

Web Design for the Everyman

NEW! Discover web design made easy, without needing to hammer out code. The sessions will provide a hands-on tour of various programs you can use to build a site, tips for designing like a pro and its influence on sales, guidance for obtaining a domain name and receiving payments on your site, and reveal the power of analytics.

We'll integrate social media, think outside the box with digital, cross-screen design, work on designing your site for desktop, mobile and tablets, and foster engagement through photo galleries, videos, forms, shopping carts and much more. We cover common site types: commerce product-driven shopping sites, professional portfolios, products and service sites and content sites for individuals and/or businesses.

Whether you want to start a new site or improve an existing one, this is a great workshop to get hands-on experience. No technical background is required, though participants must have some experience using a computer.

Perfect for small business owners, consultants, entrepreneurs and professionals looking to expand their understanding of the web design process.

Dates: Mondays, March 7 - May 23; Time: 7 - 9 PM; Fee: \$495

New IT Security Essentials Certificate Launches

This certificate program is designed to develop the core knowledge and functional competencies required to work in the cutting-edge and rapidly evolving fields of information security.

This certificate will be of interest to individuals just starting their career; career changers seeking to achieve advancement; managers and end users requiring a more in-depth understanding of information security and data protection; and seasoned practitioners seeking to round out their knowledge and attain a credential to demonstrate in-depth functional understanding.

Students who complete the program will earn a noncredit certificate as well as CEUs. Students may register a la carte in individual classes (\$495 per 10-hour class) or in the certificate course, which includes all three classes (\$1,295, representing a \$190 savings over a la carte enrollment).

The certificate is designed for:

- IT professionals, IT managers, systems and network administrators
- Information security professionals
- Business professionals interested in IT security
- Legal and regulatory professionals
- Risk analysts and managers, privacy analysts and specialists
- Career switchers seeking professional training

This certificate requires three courses, recommended to be taken in the following sequence:

- Introduction to Information Security
- Introduction to Networking and Security
- Securing Your Enterprise

If you register for the IT Security Essentials Certificate Program, you'll complete all three courses in the order above.

Digital Advertising and Marketing

NEW! This one-day workshop will share successful digital advertising techniques. You will learn how to create effective ad campaigns. You'll gain tips that will help give your business a professional look. We'll discuss the use analytics to tailor advertising to reach potential customers, plus what tools to use to create ads, and where to place your advertising for maximum effectiveness.

Learn about branding and marketing your business digitally and assess your individual needs when it

comes to what you would like to do for your business.

Perfect for small business owners, consultants, entrepreneurs and professionals looking to expand their understanding of digital marketing.

Date: Sunday, February 28 Time: 9:30 AM-3:30 PM

Fee: \$295

Discover Your Inner Artist

In our newest painting class, **Watercolor Magic**, students will push cheery colors around on the painting surface while learning watercolor techniques. Drawing skills are not needed. Warm-up exercises will build confidence for impressionistic results. Instruction will include specific methods, tools, and a physical approach to painting in a loose style. Instructor will offer two side-by-side options for painting the same subject. Individual and group critiques plus plenty of encouragement for facilitating growth make this session unique.

Or explore your pottery skills. In **Form Follows Function**, students will start by using slabs and coils of clay to make small hand-built cups, bowls, small plates and creamers.

To make your cups unique, a variety of drawing techniques will be used to finish your ware. Next we will dive into more complex forms such as large bowls, cups with handles, saucers, prep-bowls for cooking, and teapots.

This pottery course is designed for the beginner through advanced hand-builder who is interested in making functional pottery. This course also includes thorough technical demonstrations, hands-on help, safe usage of ceramic materials, investigation of surface decoration, and the proper use of hand tools.

Visit us online for a complete supply list and course details.

spcs.richmond.edu/arts

Literature of Virginia

NEW! Turning our focus to the rich literary tradition of Virginia, students will choose one book to study together over the course, from five initial options. The class will weave in Virginia poetry throughout. Reading, discussion, a little research, and a few written assignments will carry us down the river!

Dates: March 22-May 10 Tuesdays: 6-8 PM Fee: \$279

spcs.richmond.edu/writing

Take a New Look at RVA History

Richmond is known for its monuments. But if you limit yourself to Monument Avenue, you're missing out! Our newest history class, Richmond's Historic Monuments, will explore Richmond's lesser-known monuments through classroom discussion and visits to local area locations.

In Civil War Women of Richmond you'll meet Richmond's Civil War women and visit sites associated with them. From spies to nurses to industrial workers and thieves, these colorful ladies shed light on life during the time of the Confederate Capital.

Both courses are taught by Robert "Bert" Dunkerly, a historian, award-winning author, and speaker who is actively involved in historic preservation and research. He holds a degree in History from St. Vincent College and a Masters in Historic Preservation from Middle Tennessee State University. He has

worked at nine historic sites, written nine books, including Redcoats on the Cape Fear, about the Revolution in Wilmington. Dunkerly is currently a Park Ranger at Richmond National Battlefield Park.

spcs.richmond.edu/history

INTRODUCING THE RICHMOND AREA'S FIRST PERMACULTURE DESIGN CERTIFICATE

Permaculture is a design science the seeks ecological balance. Permaculture practitioners and experts study and model patterns found in nature, then seek to apply them to design and production processes. Because each element in a landscape or the built environment affects every other element at a site, a complete, comprehensive assessment is vital to develop healthy, productive, energy-efficient relationships between elements for the benefit of everyone involved in day to day operations.

The goal of permaculture is to synch human processes and practices like gardening and economic development with natural processes, and in doing so to acknowledge the inevitable intersection between the social and environmental realities of our time and the ecological challenges facing the globe.

The University is partnering with the Shenandoah Permaculture Institute, an established and well-respected permaculture instructional provider, to offer the only Permaculture Design Certificate in the Richmond region. The program provides 72 hours of instructional workshops over four weeks to certify participants. Participants who complete the certificate coursework will be prepared to apply permaculture design principles in personal and business situations.

spcs.richmond.edu/ permaculture

MEET OUR INSTRUCTORS

Ryan Blosser

Ryan is a farmer, writer, and former child and family therapist. He grew up in the Shenandoah Valley of Virginia where he served as a counselor for 7 years. He is currently Executive Director of Project Grows, a nonprofit educational farm serving children and youth in Waynesboro, Staunton, and Augusta County. In addition Ryan is owner/operator at Dancing Star Farms, a small permaculture farm in Churchville, Va. He is cofounder of Shenandoah Permaculture

Institute and holds an MA and Ed.S. from James Madison University in Clinical Mental Health Counseling.

TED BUTCHART

Ted is a naturopathic physician, herbalist and homeopath. He treats patients in both Staunton and Charlottesville at his practice, Virginia Natural Health. In addition, Ted is the Director of the GreenFire Institute, where he has taught straw bale construction to home owners, architects, and building officials, for the last 20 years. He has taught Permaculture Design for the last 21

years to several hundred students and is cofounder of the Shenandoah Permaculture Institute.

TREVOR PIERSOL

Trevor is a farmer, designer, educator and co-founder of Shenandoah Permaculture Institute. He currently teaches permaculture design at the Allegheny Mountain Institute's Farm Fellowship program. In addition, he manages the AMI Urban Farm at VSDB, a 3-acre fruit and vegetable farm and outdoor classroom dedicated to promoting garden-based education throughout Virginia. Trevor is an experienced medicinal herb grower with a specialty in

eastern woodland plants. His favorite hobbies involve exploring the diverse ecosystems of his native bio-region.

New Year, new you!

As the calendar turns to 2016, we hope you'll find a wealth of ways to fulfill your resolutions at the University of Richmond.

Explore professional development opportunities such as Web Design for the Everyman, one-day workshops like Digital Advertising and Marketing, or our new Network Security Certificate.

Or turn over a new leaf and dig into the Richmond area's first permaculture design certificate. As a holistic ecological design system, this cutting-edge field includes food production that mimics the natural ecosystems found in forests.

Expand your personal horizons with the Literature of Virginia, Blown Glass Easter Eggs, two Shakespeare courses for the whole family, and new chances to gather Around the Chef's Table. From Art to History to Youth programs, something is sure to spark your spirit this spring.

So step up, look inside, and discover a new you!

THINK AGAIN
