# There's a new Senior Class AT THE UNIVERSITY OF RICHMOND

And, if you're 50 or older with a curious mind and a keen interest in learning, we'd love for you to be a part of it.

The Osher Lifelong Learning Institute has been established at the University of Richmond School of Continuing Studies through a grant from the Bernard Osher Foundation of San Francisco. We are a membership organization that serves adults 50 and above who are seeking opportunities for intellectual stimulation in a community of lifelong learners.

We offer an extensive array of courses in the liberal arts in the fall, spring and summer semesters. The offerings are a combination of undergraduate credit courses for audit, special interest mini-courses, community service projects, performing arts events and more. There are no entrance requirements, no tests and no grades. In fact, no college background is needed at all—it's your love of learning that counts.

## Humanities

### **Right From Wrong: A Study of Ethics and Ethical Decision-Making**

There is evidence to suggest that cheating has not only increased, but that it has become more acceptable. Using the Socratic method, class discussion, analysis of scenarios and case studies, this course will look at questions like “What makes people cheat?”, “Why do ethics matter?”, “What is the importance of core values?”, “Is it ever right to do something wrong?” and “What are the ethics of the 21st Century?”

**CRN:** 50245

### **What Makes Our Western Culture? . . . It’s Greek to Me**

Plato has been called THE Western Philosopher. . . all who follow are but footnotes. Arguably the most defining story ever written in Western literature, Plato’s Cave differentiates Western from Eastern time and space, and addresses pesky questions like “where did I come from, what is the purpose of life; what should I do if any THING in retirement, is there life after death, will I go to heaven, etc?” This course will examine why the “twain” of East and West shall never meet and why civilizations can be said to “clash”. We will also look at Plato’s notion of dualism: earth versus heaven, mind versus body, and on a moral level, good versus bad and us versus them.

## Jeff McKee's School of Rock: Rock and Roll and the Sixties

The sixties changed everything. The years 1960 through 1969 can be seen as the line of demarcation between yesterday and today, the way we were and the way we are, the world as seen in black and white and the world as seen in full glorious color. There was a radical shift away from crew cut conservative America to a revolutionary approach to almost every aspect of society that was engineered by the generation of over 70 million post-war babies who came of age in the sixties. One of the major catalysts for change in the sixties was rock and roll. Jeff McKee, Richmond's leading authority on all things rock and roll, will tell the story of the music and its most volatile decade and make the case that never before and perhaps never again will life imitate and be influenced by art as it was in the sixties.

Using many rare and exclusive recordings and visual images, Jeff will introduce an almost endless cast of unique and compelling characters such as Bob Dylan, the Beatles, the Rolling Stones along with many others whose musical visions still impact the way we see and hear our world today. This class will be an interactive, multimedia opportunity to learn and experience the varied emotions of the music that changed the world.

**Dates:** Wednesdays, September 21, 28, October 5, 12, 19 and 26  
**Time:** 6:15–8:15 p.m. **CRN:** 50249  
**Fee:** \$120 for Silver Members; no fee for Gold or Gold Plus One Members  
**Faculty:** Jeff McKee, former host of the Jeff and Jeff show on WRXL. An almost forty-year veteran of the world of rock and roll and the entertainment industry, Jeff is a four-time winner of the Virginia Association of Broadcasters "Best Morning Show in Virginia," and was picked as one of the five best medium market morning personalities in the nation by the National Association of Broadcasters in 1998. Jeff's class *Introduction to the Essentials of Rock and Roll, 1954-1977* is a popular course at the University of Richmond's School of Continuing Studies.

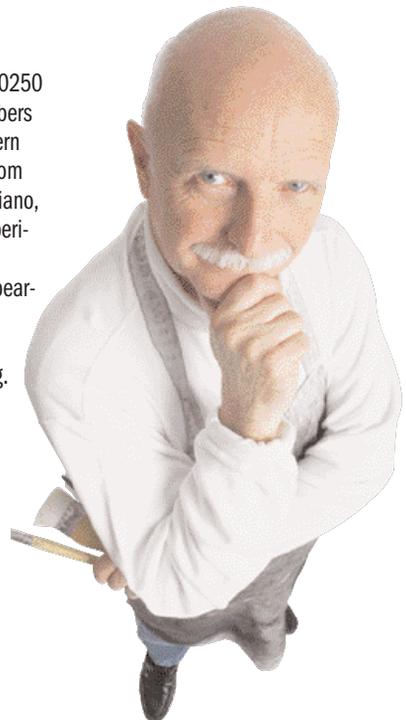

## Grand Opera: From The Page To The Stage

Many familiar and beloved masterpieces of opera were adapted from works of literature. Join Glenn Winters for a fascinating look at how a romantic French novel by Alexandre Dumas and a classic Shakespearean tragedy were transformed into Verdi's *La Traviata* and Gounod's *Romeo et Juliette*.

**Dates:** Mondays, September 26, October 3, 10  
**Time:** 1–3 pm. **CRN:** 50250  
**Fee:** \$60 for Silver Members; no fee for Gold or Gold Plus One Members  
**Faculty:** Glenn Winters received the Doctor of Music from Northwestern University; he also holds the B.M. and M.M. in piano performance from Indiana University. His background includes teaching college-level piano, arts administration at two universities, and extensive performing experience as solo pianist and accompanist. As an operatic baritone, Dr. Winters has sung over a dozen principal roles, including a guest appearance with the Operafestival di Roma in Rome, Italy, where he also served as Chorus Master. His compositions include three successful children's musicals and a full-length opera, *Much Ado About Nothing*. He joined Virginia Opera's Education and Audience Development department in 2004 as Community Outreach Musical Director.

The forensic science laboratory works closely with the medical examiner and law enforcement to test evidence from crime scenes and dead bodies.
